Relevant Experience

Research Intern | Mercedes-Benz AG

March 2025 - August 2025 • Full-time • Böblingen, DE • On-Site

As part of my Master's degree, I began a voluntary internship in the Research and Development department at Mercedes-Benz. As a designer, my role is to transform concepts into functional prototypes by combining design expertise with development knowledge.

UI/UX Designer | Lead Consultant | CGI Deutschland

June 2022 - February 2025 • Full-time • Stuttgart, DE • Hybrid

In an agile Scrum environment, I designed as well as developed user interfaces for clients across various industries, utilizing modern design tools and web technologies. I was also responsible for requirements analysis, creating user flows, designing cohesive UI and style guides, and ensuring adherence to best practices and design guidelines for improved usability and accessibility. Furthermore, I coordinated collaboration between interdisciplinary teams and acted as the interface between design, development, architects, and other stakeholders.

UI Designer & Full Stack Developer | Tricksiebzehn GmbH

May 2019 - May 2022 • Full-time • Schwäbisch Gmünd, DE • On-Site

I took responsibility for designing, coding, optimising, and maintaining lightweight, robust, and user-friendly websites and shops, using Shopware, Contao, WordPress. I enhanced User experience, elevated SEO rankings, and boosted reviews, user retention, ultimately leading to higher sales.
